

Forest Green® Oak shades with style

Forest Green® Oak

(*Quercus frainetto* 'Schmidt') is tough as well as beautiful. We introduced this drought resistant and adaptable selection of Hungarian Oak in 1987. It is proving to be an excellent street tree. Its deeply lobed dark green leaves are very glossy and maintain a fresh, cool look

through the heat of summer. Fall color is tawny golden brown.

Vigorous and upright growing, with a strong central leader, it matures in a narrowly oval, upright shape to a height of approximately 50 feet and spread of 30 feet. Hardiness is Zone 5b.
