

# *Wisterias weave their spell on gardeners*

**Amethyst Falls Wisteria** is among the seven lovely Wisterias we offer in # 5 containers. Named a Georgia Gold Medal Plant in 2006, it was recognized for Gold Medal performance by the Pennsylvania Horticultural Society in 2007. Its attributes are described on the PHS website:

*“This North American native is a delightful alternative to its invasive Asian cousins. Slightly fragrant lavender-blue 5” flowers cover this twining vine in May and June. ‘Amethyst Falls’ is a superior selection with recurring blooms through August. Tough and adaptable, it’s suitable for urban gardens—great on a trellis or arbor, over fences, and in containers. It grows to about 15 feet; prune as desired in early spring. Plant it in full or part sun. Hardy in zones 5 to 9.”*
