

# Bald Cypress

(*Taxodium distichum*)

Named a “Great Plant for the Great Plains” by the Nebraska Statewide Arboretum, and a “Great Plant Pick” for the Pacific Northwest, Bald Cypress thrives in the Heartland and beyond. Native to wetlands, it has proven adaptable to dry, compacted urban soils. Deciduous, needlelike green leaves turn orange-tan before dropping in autumn. Ours are available in #3 Air Root containers. An “Oklahoma Proven®” award winner as well, this young specimen’s symmetrical beauty is reflected in Oklahoma City’s Bricktown canal.
