

# Afterburner<sup>®</sup> Tupelo

*Nyssa sylvatica* 'David Odom'

**Zone:** 5  
**Height:** 35'  
**Spread:** 20'  
**Shape:** Upright pyramidal to oval  
**Foliage:** Bright green, glossy  
**Fall Color:** Bright red  
**Fruit:** Blue-black, 3/8"

Symmetrical, uniform and upright branch structure and straight central leader make this cultivar easier to grow and better suited than seedlings of the species for use as a street tree. High gloss foliage shines through the summer and then turns bright red in fall, burning brightly after most tupelo have defoliated.
