Tilia americana 'McKSentry'

American Sentry® Linden

Zone: 3 | Height: 45' | Spread: 30'
Shape: Pyramidal, symmetrical
Foliage: Medium green
Fall Color: Yellow

This handsome and hardy cultivar of the native American basswood was introduced by McKay Nursery of Wisconsin. It develops a very straight trunk that supports a well-branched, very uniform canopy.

Tilia americana 'Boulevard'

Boulevard Linden

Zone: 3 | Height: 50' | Spread: 25'
Shape: Narrowly pyramidal
Foliage: Medium green
Fall Color: Yellow

Tall and narrow, this selection of the native American Basswood is very hardy and well suited to street plantings.

Tilia americana 'Continental Appeal'

Continental Appeal™ Linden

Zone: 4 | Height: 50' | Spread: 28'
Shape: Narrow oval becoming pyramidal
Foliage: Medium green, white below
Fall Color: Yellowish

Vigorous, upright and easy to grow, this linden comes from stock native to the upper Midwest. Bold white undersides of its large leaves shimmer in the summer sun. Originally introduced as T. heterophylla, this species is now included in T. americana. It's a good substitute for green ash in areas where emerald ash borer is present.

Tilia americana 'DTR 123'

Legend® Linden

Zone: 4 | Height: 40' | Spread: 30'
Shape: Broadly pyramidal
Foliage: Medium green
Fall Color: Yellow

A strong grower with clean glossy leaves that resist the rust problems of the species. Winter buds and twigs are bright vermillion.

<tr>
<td>A selected form of native American Basswood. Densely branched, its foliage maintains a fresh, dark green appearance throughout the heat of summer.</td>
<td>Redmond grows rapidly and develops heavy caliper as a young tree, becoming pyramidal and symmetrical as it matures. Its large leaves give it a coarser textured appearance.</td>
