

Seven-son Flower

Heptacodium miconioides

Zone: 5
Height: 15'
Spread: 15'
Shape: Low branched or multi-stem, arching
Foliage: Glossy green
Flower: Fragrant white clusters, red calyxes

Calyxes become even more spectacular after the flower petals fall, intensifying to red and holding through autumn. It gives the appearance of blooming twice, first white and then red. Exfoliating bark is attractive and lends interest to the winter landscape.
