

# Tschonoskii Crabapple

*Malus tschonoskii*

**Zone:** 5  
**Height:** 28'  
**Spread:** 14'  
**Shape:** Upright, narrowly oval  
**Foliage:** Silvery green, to green  
**Fall Color:** Orange, red and purple  
**Flower:** White  
**Fruit:** Greenish, 1", sparse

**DISEASE RESISTANCE:**  
**Scab:** Good  
**Fireblight:** Poor  
**Cedar-Apple Rust:** Excel.  
**Mildew:** Excel.

Unusual for its narrow form and striking foliage. Silvery green new growth matures to light green with silvery green undersides. Fall color outshines that of all other crabapples.
