

Flashfire[®] Maple

Acer saccharum 'JFS-Caddo2' PP 23361

Zone: 4
Height: 45'
Spread: 40'
Shape: Broadly oval
Foliage: Dark green
Fall Color: Bright red

Dark green, heat resistant leaves cast cool shade on hot summer days before turning the brightest shade of red of any sugar maple cultivar adapted to Southern heat.

Selected from seed gathered in the Caddo Mountains of western Oklahoma, this cultivar shows vigorous growth, open branch angles, a strong central leader, and better mildew resistance than other Caddo selections.
