

Mountain Sentinel™ Aspen

Populus tremuloides 'JFS-Column'

Zone: 3
Height: 35'
Spread: 8'
Shape: Narrow, fastigate
Foliage: Green, trembles in breeze
Fall Color: Yellow

Our native aspen is now available in fastigate form! Extremely narrow and upright, with ascending branches, it has the same silvery-gray bark, fluttering leaves, and golden yellow fall color, but in a much narrower form.
