

Pink Flair® Cherry

Prunus sargentii 'JFS-KW58'

Zone: 3b
Height: 25'
Spread: 15'
Shape: Upright narrow vase
Foliage: Dark green
Fall Color: Orange-red
Flower: Single pink, in clusters

Narrow and upright in form, but compact in height, this flowering cherry is well suited for urban landscapes. It avoids frost damage by flowering a week or two later than is typical of the species and has proven to be the hardiest of the flowering cherries. Fall color is consistently bright orange-red, and its handsome bark and upright symmetrical provide winter appeal.
